

SPRAY TANNING WAIVER & LIABILITY RELEASE

PLEASE NOTE THE FOLLOWING

- + The spraying process will take approximately thirty (30) minutes. After spraying, you should let yourself dry approximately eight (8) minutes before putting your clothes back on, and you should not shower, bathe or sweat excessively for eight (8) hours.
- + The bronzing and tanning solutions used during your session have the potential to stain clothing. We recommend that you wear something dark in color that can be stained without concern. Cotton clothing is less likely to stain. After your tanning session, you should wear dark, loose fitting clothes.
- + Be advised that a small percentage of people have skin that does not react favorably to spray tanning due to known or unknown medical conditions. Please consult your physician if you have a bad reaction.
